Volunteers from Across the Globe

11 years ago, Amazon formally established our pro bono program. The program gives our legal and public policy professionals throughout the world a wide variety of opportunities to use their skills to help individuals and organizations that cannot otherwise afford access to justice. For years, these efforts happened quietly around the world. Four years ago, we began capturing and sharing the incredible stories and experiences from our teams serving the communities where we live and work.

Our mission - to help those who need it most - remains unchanged.
